AURORA BOREALIS

RPG DICE SET

Aurora Borealis is a magical natural phenomenon. Our marketing research and development department hopes to embody this magical phenomenon on our dice. Although some similar products have appeared on the market, the feedback from players after experiencing these dices is too dim to truly embody the beauty of aurora borealis. After months of research, the TOP IMPRINT team confirmed that our Industry leading technological process is enough to overcome these difficulties, Now we launched this new Aurora borealis Dice Series for the market.
